SUMMARY JUDGMENT GRANTED

NO CAUSATION, NO CASE

DunbarMonroe, PLLC attorneys David C. Dunbar and Kim McCormack recently obtained summary judgment of all claims in a state court motor vehicle accident case. In that case, the Defendants argued that the Plaintiff's accident reconstructionist expert failed to provide adequate opinions on causation. Specifically, the Defendants pointed out that even if the truck driver had operated his vehicle in line with the technical recommendations of the Plaintiff's expert, there was no opinion that such behavior would have avoided the subject accident. The Circuit Court of Bolivar County agreed. Therefore, Defendants' Motion for Summary Judgment on the issue of causation was granted and the Plaintiff's claims were dismissed with prejudice.
