Favorable result in wrongful death case

Bailey & Wyant, PLLC's Of Counsel, Albert C. Dunn, Jr., and Managing Member, Charles R. Bailey received a favorable result in a wrongful death case stemming from a tractor trailer accident in West Virginia on behalf of an out-of-state manufacturer/shipper of a product.

The case was brought in Federal Court by a Toledo Law firm that specializes in filing wrongful death cases involving interstate and intra-state trucking. Pending before the Court was Defendant's motion to dismiss based on several grounds, including jurisdiction, failure to state a claim, and federal preemption.

Plaintiff's counsel agreed to voluntarily dismiss the case with prejudice against the law firm's client before responding to the Motion to Dismiss and/or serving answers to the Defendant's outstanding written discovery.
